2026 Deer Recovery Client Agreement

Wisconsin Aerial Drone Services • 920-212-6088 • wiaerial.com

AGREEMENT WIA-DR-2026.1

Read every provision before signing. This agreement applies to one accepted deer-recovery search. The client must provide complete property and permission information before Wisconsin Aerial begins work.

Client and Search Information

CLIENT FULL LEGAL NAME

MOBILE NUMBER

EMAIL ADDRESS

ACCEPTED-SEARCH REFERENCE

SEARCH PROPERTY ADDRESS / PARCEL / LOCATION

PROPERTY OWNER OR AUTHORIZED CONTROLLER

Permission basis:

☐ I am the property owner/authorized controller. ☐ I have current permission from the owner/authorized controller.

ADDITIONAL PARCELS, OWNERS, OR PERMISSION DETAILS

Agreement Terms

1 Property permission and boundaries

I represent that I own the property identified for ground access or have current permission from its owner or authorized controller for me, my party, and Wisconsin Aerial personnel to enter, launch, land, and conduct ground recovery activities there. I will identify property boundaries accurately. If the search reaches another parcel, no one in my party will enter, launch from, land on, or recover from that parcel until its owner or authorized controller gives permission.

Initial

2 Lawful hunt and harvest authority

I represent that the original hunt was lawful and that I hold every license, approval, and harvest authorization required for the deer and location involved. I remain responsible for complying with seasons, legal shooting hours, weapon restrictions, registration requirements, and all other applicable laws.

Initial

3 Live deer and no same-day pursuit

This service is for post-shot recovery, not hunting. I will not use aerial observations, imagery, coordinates, directions, or other search information to locate or aid the hunting of a live deer. If the deer is found alive, I and anyone acting with me will not approach, pursue, drive, shoot, or attempt to harvest that deer for the remainder of the current hunting day using information from the search. Any later hunting may begin only on the next lawful hunting day, during legal hours, with all required authority and property permission, unless a Wisconsin conservation warden or other authorized law-enforcement officer directs otherwise.

Initial

4 Pilot authority and safe operation

The remote pilot retains sole operational control of the aircraft and may delay, modify, suspend, or end a search because of weather, visibility, airspace, people, animals, obstacles, property access, equipment, law, or any other safety or compliance concern. I will keep my party clear of the aircraft and follow the pilot's safety instructions.

Initial

5 Accurate information and hazards

I will provide accurate details about the shot, last known point, direction of travel, property boundaries, access, people, structures, wires, livestock, and other known hazards. Wisconsin Aerial may rely on that information when deciding whether and how to conduct the search.

Initial

6 $350 service fee and no guaranteed result

The standard fee for an accepted deer-recovery search is $350. The fee pays for the accepted search effort and is not a bounty or payment for locating or recovering a deer. Detection, identification, condition, location, and recovery are not guaranteed. Any written cancellation, rescheduling, or fee adjustment confirmed by Wisconsin Aerial for this search controls over this paragraph.

Initial

7 Ground activity and personal responsibility

I understand that fields, woods, water, darkness, weather, terrain, animals, fences, and recovery activity can create risks. I am responsible for my own conduct and for the conduct of the people I bring. I will not direct Wisconsin Aerial to trespass, violate a law, or continue an unsafe operation.

Initial

Wisconsin compliance note. Wisconsin regulations prohibit hunting an animal with the aid of an aircraft or drone. They also require reasonable recovery efforts without authorizing trespass or shooting beyond legal hours. The next-lawful-hunting-day provision above is an additional contractual safeguard for this service.

Required Acknowledgments

- ☐ I confirm the property-permission and boundary statements above.
- ☐ I confirm the lawful-hunt and harvest-authority statements above.
- ☐ If the deer is found alive, I will not use search information to pursue or hunt it until the next lawful hunting day, subject to the terms above.
- ☐ I accept the pilot's operational authority and will follow safety instructions.
- ☐ I understand the accepted-search fee is $350 for the search effort and no result is guaranteed.
- ☐ I am at least 18 years old and legally able to enter this agreement.

Optional media permission — not required for service

☐ Yes, Wisconsin Aerial may use de-identified aerial images or video from this search for education and marketing. ☐ No.

Signatures

By signing below, I confirm that the information I provided is accurate, that I read and agree to all terms, and that I intend this document to be legally binding.
